## FULL STACK DEVELOPER

## EDUCATION

### B.S.C (2-years) (UOS)

20222024

## SKILLS

- HTML5
- CSS3
- JavaScript (ES6+)
- 3d Animation
- React.js
- WordPress
- Bootstrap 5
- Elementor
- Responsive Web Design
- Tailwind
- Git & GitHub
- Node Js
- Express Js
- Mongo Db
- Python

## React.js & JavaScript Projects

I have worked on several frontend development projects that helped me strengthen my skills in React.js and JavaScript. I developed a responsive Weather App using React.js with real-time API integration, including features like city search, Celsius/Fahrenheit conversion, loading states, and error handling. I also built a BMI Calculator using React.js with real-time calculations and a clean, responsive user interface. Additionally, I created an interactive Tic-Tac-Toe game using JavaScript, implementing game logic, winner detection, and score tracking to deliver an engaging user experience.

## ABOUT ME

My name is Qasim, and I am a Full Stack Developer with a strong focus on Front End development, specializing in designing and building responsive, user-friendly websites and web applications. I gained hands-on experience as a Front End Developer Intern at Wisdom Coder, where I built and maintained client websites using WordPress, Elementor, and custom CSS. I'm skilled in HTML, CSS, JavaScript, and React.js, and I'm expanding my expertise into (Python, Node Js Express Js and Mongo Db) back-end development to deliver complete, end-to-end solutions. Some of my self-driven projects include a Weather App, BMI Calculator, and Tic-Tac-Toe game, which reflect my problem-solving skills and passion for building functional applications.

## EXPERIENCE

### WordPress Developer Intern — Wisdom Coder

Worked as a WordPress Developer Intern at Wisdom Coder, where I developed, customized, and maintained responsive WordPress websites. Worked on Elementor page building, theme customization, website optimization, bug fixing, and performance improvements. Collaborated on client projects to ensure responsive design, cross-browser compatibility, and a smooth user experience. Also improved my frontend development skills by learning HTML, CSS, JavaScript, and React.js.

### Australia's National Defence — WordPress Website

- Developed a responsive WordPress website focused on modern UI design and professional presentation.
- Worked on layout customization, content organization, and improving user experience.
- Ensured responsive design across different devices and screen sizes.

### RollingThunderSkating — WordPress Website

- Developed and customized a responsive website for a skating brand.
- Created modern UI layouts with smooth navigation and engaging visual elements.
- Focused on service presentation, brand identity, and user-friendly design.

### Pic-Ton-Civil-Ptv Ltd — WordPress Website

- Developed a professional business website using WordPress.
- Focused on modern design, service presentation, and responsive layouts.
- Improved website structure and user experience for business branding.

### Priority Insurance Brokers — WordPress Website

- Developed a responsive website for an Australian insurance brokerage.
- Worked on UI/UX improvements, service sections, and professional business presentation.
- Customized pages using Elementor and optimized layouts for better user experience.

### Full Stack Developer

- Full Stack Developer passionate about building end-to-end solutions, with hands-on experience creating and shipping multiple self-driven projects from concept to deployment.
- Skilled in both front-end and back-end technologies, I enjoy turning ideas into functional, real-world applications independently.
